Educating the People 'Reminiscences'

When I started school in 19_____

The school was built.....

There were....pupils in the class.

The first thing I remembered learning was.....

Teachers, lessons, food, discipline, testing, outings.....What do you remember of your school days? Or did you learn at home? Either way, it was probably different from today's schooling. Add your experience to our Educating People conference by writing your memories (add pictures if you like).

No prizes, but your own contribution to the history of our times.
