CALH SPRING CONFERENCE - 9 APRIL 2011

Sawston Village College, New Road, Cambridge CB22 3BP

Educating the People

'A NATIONAL EVIL REQUIRES A NATIONAL REMEDY'

*How inspired individuals and groups brought us
from mass illiteracy to universal education*

Have you researched issues of education in your village or community?

Would you like to carry out some research before April 2011?

We would like to include your work in the exhibition display which will accompany the presentations at the *Educating the People* Conference.

Any relevant topic will be welcome. It could be about your village school, but it could also be about other aspects of education, whether for children or adults. Has your village a nineteenth century village Reading Room? Have you a history of WEA or other adult education? Were there any initiatives to promote vocational training – anything from straw plaiting to metal work? Have you records of young people being indentured apprentices? Are there personal records of individuals who won an education against the odds?

(If you would like to do some new research, check out the Victoria County History entry for your community, to see what has been done and what you might do. The staff at the County Record Office and the Cambridgeshire Collection will then be pleased to help you.)

If you have work already carried out, or if you would like to carry out such a project this spring and display the results, do let us know. We would like to plan for your display, so please complete and send us the details below.

Please return these details to (or for further information contact)
